

## Terms of Service ("Terms")

Last update: 2020-05-18

Please read these Terms of Service ("Terms", "Terms of Service") carefully before using the [Try-Anjay](#) platform (the "Service") operated by AVSystem Sławomir Wolf Sp. J., Poland ("us", "we", or "our"). Your access to and use of the Service is conditioned on your acceptance of and compliance with these Terms. These Terms apply to all visitors, users and others who access or use the Service.

**By accessing or using the Service you agree to these Terms. If you disagree with any part of the terms then you must not access the Service.**

- The Service is intended only for testing OMA LwM2M-supported IoT devices. Other usage is considered a violation of these Terms.
- You are responsible for all the consequences resulting from connecting physical or artificial devices to the platform and managing them using this Service.
- The access to this Service is granted by entering a dedicated link which is sent to you by email. The link must be used only by the person who filled in the registration form. The link has no expiration date.
- Any abuse such as connecting a large amount of devices, uploading large files or sending excessive amounts of data, such as e.g. tremendous number of OMA LwM2M messages, may result in termination of the Service.

### Termination

**We may terminate or suspend access to our Service immediately, without prior notice or liability, for any reason whatsoever, including without limitation if you breach the Terms.**

### Content

The Service allows you to post, store, edit and otherwise make available certain information related to your IoT (Internet of Things) devices or other material ("Content"), including but not limited to: device security credentials, device management protocol settings, endpoint name and device configuration.

It is forbidden to store any vulnerable information such as (but not limited to) personal data in the platform. Since the service can also retrieve and store such data from the connected devices, it is your responsibility to make sure that no sensitive data stored on your devices is exposed through the device management protocol.

The Service does not provide backup of the Content.

### Changes

We reserve the right, at our sole discretion, to modify or replace these Terms at any time. If there is a major revision, we will try to provide at least 14 days' notice prior to any new terms taking effect. What constitutes a major revision is determined at our sole discretion.

### Contact Us

If you have any questions about these Terms, please contact us.
